Kaminia is one of the settled residential neighbourhoods of Piraeus: quiet streets, a real neighbourhood feel, and the sea a few minutes away. Elementary schools are a two-minute walk, high schools five, the suburban railway 5–10 minutes on foot, and Sklavenitis the same. The Archaeological Museum of Piraeus, Marina Zeas, the Peace and Friendship Stadium and the historic fish market are all close. Metro Line 1, the suburban rail and the main road network put central Athens and the airport within easy reach.

A contemporary five-storey building on Moutsopoulou Street with twenty residences — a repeating floor plate of four units per level. One two-bedroom unit of 77.2 m² and three one-bedroom units of 42.39, 52.22 and 55.81 m² on each floor, with prices stepping up €2,000 per floor. Thirteen double parking spaces serve the building, giving capacity for twenty-six vehicles; each pair is sold separately at €30,000.

The threshold follows the zone and the route

The qualifying threshold is set by the zone the property sits in and by the route chosen, and must be confirmed for each individual unit. The €250,000 level is not location-based: under current law it applies only where a non-residential property has been converted to residential use, or where a listed building is restored. We confirm the route and the supporting file for every unit before reservation.

RENTAL OUTLOOK

Piraeus has the deepest year-round rental market in Attica outside the centre: port and shipping employees, university students, and staff at the hospital and stadium clusters. Kaminia lets to long-term domestic tenants rather than seasonal visitors, which keeps occupancy flat across the year and makes the income easier to underwrite.
